Towards a European qualification for Solid Waste Facilities’ Managers

Duration: 2013 - 2014
Funding: LEONARDO DA VINCI
Coordinator: Sigma Consultants Ltd (Greece)
Coordinator in APINI: dr. hab. J. K. Stanėkis
Partners: KTU APINI, Alytus Region Waste Management Center (Lithuania), SIGMA Consultants (Greece), Hellenic Federation of Environmental Protection Companies (Greece), Saxon Education Company for Environmental Protection and Chemical Occupations Dresden Ltd. (Germany), Research Institute for Vocational Education & Training (Germany), SINERGIE Società Consortile a responsabilità limitata (Italy), Szent István University (Hungary), Association of Environmental Enterprises (Hungary), Trust Waste Management Limited (The United Kingdom), Institute of Environmental Protection – National Research Institute (Poland), Polish Chamber of Commerce (Poland), Bulgarian Industrial Association (Bulgaria)

Description: The project aims at developing a European qualification and training framework to address the needs of facilities managers in the waste management industry. The project covers analysis of the national qualification and training frameworks, analysis of different frameworks, development of harmonized competence and training framework for different levels of SWFM qualifications, and development of a self sustaining implementation strategy to support the recognition and transfer of qualifications across the European countries.
