VISION RD4SD

Research and Development for Sustainable Development

Duration: 2011 - 2013

Programme: European Commission 7th Framework Programme

Coordinator: Swedish Research Council for Environment, Agricultural Sciences and Spatial Planning (Formas) (Sweden)

Coordinator in APINI: dr. hab. J. K. Stanūnas

Partners: KTU APINI, Swiss Federal Office for the Environment Organisation (FOEN) (Switzerland), The Icelandic Centre for Research (Iceland), Consortium for Managing Research Activities in the Venice Lagoon (Italy), University of Maastricht (The Netherlands), Universidade de Aveiro (Spain), Malta Council for Science and Technology (Malta), German Federal Environment Agency (UBA) (Germany), The Swedish Environmental Protection Agency (SEPA) (Sweden), The Austrian Federal Ministry for Science and Research (Austria), Latvian Academy of Sciences (Latvia)

Description: VISION RD4SD aims to ensure that Europe is able to contribute to a sustainable development of the World, by formulating policies and decisions based on robust, up-to-date knowledge. This will be done by developing a shared vision between science funding bodies and national science policy institutions in the European Member States on how best to harness research and development for sustainable development (RD4SD).
