

Notes for Students

Step 1

At least **5 working days** before the defense, Student enters the data about the Thesis and uploads a PDF file of Final Thesis to the eLABa Repository at www.elaba.it

Step 2

Submit the Thesis for plagiarism check and Supervisor's confirmation.

Step 3

When Supervisor has checked the thesis for plagiarism, Student receives an e-mail message, logs onto the eLABa Repository and:

a) If the e-mail message says that a **Licence Agreement should be signed**, Student:

- 1) confirms that the data in the Licence Agreement are correct;
- 2) changes the status of the thesis: **to be defended**.

b) If the e-mail message says that the author **should revise the thesis**, Student:

- 1) revises the text according to the Supervisor's notes;
- 2) corrects the mistakes, and resubmits the Thesis to the eLABa for Supervisor's confirmation.

Notes:

1. The text in printed version of the Thesis and the PDF file in the repository should be the same.
2. If plagiarism is detected, Supervisor informs the Thesis Committee about this fact. The Committee confirms or rejects this conclusion.
