Admission to third cycle (doctoral) studies in Lithuanian University of Educational Sciences (LUES), Kaunas University of Technology (KTU), Lithuanian Sports University (LSU), and Šiauliai University (SU) is implemented following general regulations for doctoral studies and procedure of calculating competition scores for 2015.

1. Participation in the competition for doctoral studies in the field of Educational Sciences is permitted to persons who have a Master’s qualification degree or a higher education degree equivalent to it.
2. Admission to different institutions of joint doctoral studies is implemented following the quotas assigned by the Ministry of Education and Science (hereinafter the Ministry) (to every educational institution individually).
3. The competition to topic areas of joint doctoral studies is implemented separately for each institution.
4. The applicant should submit an application addressed to the Rector of an institution implementing joint doctoral studies to participate in the public competition for doctoral studies. The application can be submitted to the Research Office of the institution of joint doctoral studies (upon the applicants’ choice of the topic area, i.e. LUES, KTU, LSU, or SU). Other documents (see chapter 23) must be submitted alongside with the application, which should indicate the field and form of doctoral studies as well as the priority topic areas (not more than two).
5. Applicants of a different study field than Educational Sciences must take an entrance examination of Educational Sciences. The examination is taken in the university where the application to participate in public competition to doctoral studies has been submitted. The examination programme is publicized on the website of the university alongside with the Conditions and Procedure of Public Competition for the Admission to Third Cycle (Doctoral) Studies in the Field of Educational Sciences. The applicants that have received a positive evaluation for the examination can continue their participation in the competition.
6. The competition for the admission to doctoral studies is organized by the Research Office of the coordinating university (Lithuanian University of Educational Sciences), and implemented by the Committee for joint doctoral studies, which includes members, i.e. researchers in the field of Educational Sciences, from all the institutions concerned: LUES, KTU, LSU and SU. The applicants are admitted to joint doctoral studies in the field of Educational Science individually to the offered topic areas following competition results. The interview with Committee members must be attended by all applicants.
7. Rectors of the joint doctoral studies in the field of Educational Sciences or their authorized persons sign individual bilateral agreements with persons admitted to full-time or part-time doctoral studies in the field of Educational Sciences (agreements are signed by Rectors of the institution, in which the applicant intends to write the dissertation).
8. Enrolment criteria to doctoral studies for 2015 are as follows:
   - Research experience, scientific publications; the assessment involves their compliance with the field of Educational Sciences, as well as selected research and dissertation topic;
• The average score for Master studies or single-cycle studies in higher school and the final paper;
• the mark for a foreign language (English, French or German), recorded in the diploma supplement for first or second cycle studies, or single-cycle studies in higher school (upon the choice), or the certificate issued by a licenced centre of foreign languages;
• motivational interview.

9. Enrolment criteria, their weighted coefficients and competition scores are confirmed every school year following the joint order of the Committee. The procedure of calculating the competition score for 2015 is provided in Annex No. 1.

10. The applicants are assessed in points by the Committee with regard to the enrolment criteria, and listed in the order of precedence based on the highest competition scores for the admission to the topic areas announced by individual institutions (LUES, KTU, LSU, SU). The applicants for state financed positions can be admitted only if the final competition score is not lower than 8 (eight).

11. The applicants are admitted to joint doctoral studies by individual orders of Rectors following the Minutes of the Committee with regard to the applicant’s choice of the topic area offered by the institution, in which s/he intends to right doctoral dissertation. The order should prescribe the field of research, method of financing, institution of joint doctoral studies, topic area of the dissertation, and the form of studies (full-time – up to 4 years, or part-time – up to 6 years).

12. In case there are positions left after the admission, the Research Office of the university can organize a second stage of admission, which is implemented following the same procedure.

13. The applicants that have not been admitted to state financed positions, may choose state non-financed doctoral studies upon the proposal of the Committee, paying the established tuition fee to the institution that the agreement is signed with.

14. Citizens of the European Union (hereinafter the EU) participate in the competition following the established procedure.

15. Applicant of foreign states (other than EU), who have Master’s qualification degree or higher education diploma equivalent to it, in addition to the documents listed in chapter 23, are also required to present a document certifying the academic qualification acquired abroad, and pay the established tuition fee to the institution that the agreement is signed with.

16. Citizens of non-European Union states that are admitted to doctoral studies have to acquire a residence permit to live in the Republic of Lithuania.

17. Doctoral studies are implemented in the Lithuanian language or the language approved by the Committee.

18. The Committee shall organize the meeting of the Committee not later than a fortnight from the start of the academic year. The entrants and scientific supervisors of the topic areas are required to participate in the meeting; the entrants are attached to the supervisors.

19. Upon the confirmation of the Committee, the scientific supervisor is approved by the Order of Rector of the doctoral student’s institution. Upon the confirmation of the Committee, the division of the institution that the doctoral students is attached to is approved by Rector’s Order.

20. Personal file of the applicant that has not been admitted is stored in the Research Office of the coordinating university for a year, later it is forwarded to thr archives of the coordinating university.

21. In the period of three days after the announcement of the Minutes of the Committee, a person that has submitted an application to doctoral studies but has not been admitted has a right to:
   21.1. submit a repeated motivated application or appeal to the Committee;
   21.2. write an appeal to the Rector of the coordinating university in three days after the negative response from the Committee.

Annex 1

Calculation of the Competition Score

\[ CS = a_p^xP + a_r^xR + a_d^xD + a_l^xL + a_i^xI \]

CS – competition score;
ai – weighted coefficient;
points given within a 10-point scale for:
1. P – publications,
2. R – research experience,
3. D – average of marks in Master’s degree diploma supplement, or diploma supplement of single-cycle study programme of an institution of higher education (including the final paper if any);
4. L – the mark for a foreign language (English, French or German), recorded in the diploma supplement for first or second cycle studies, or single-cycle studies in higher school (upon the choice), or the certificate issued by a licenced centre of foreign languages;
5. I – assessment of the motivational interview.

Weighted coefficients

\[ a_p = 0.25; \ a_r = 0.15; \ a_d = 0.25; \ a_l = 0.10; \ a_i = 0.25 \]

Assessment criteria
